Department of Public Works: DPW Director Jon Winter reported the following:

Streets: Snow removal, sanding and maintenance of streets/cleared ice along curbs and sidewalks

Discussion followed concerning snow removal along Bridge Street:

Purchase of street closure/no parking signs – approximately \$20 per sign plus the cost to build stands for the signs to be placed in strategic locations.

Councilman Nelson made a motion to allow DPW spend up to \$350 to purchase signs and posts to indicate no parking for removal of ice and

snow along Bridge Street. Councilman Wilcoxson seconded and the motion carried unanimously.

Discussion followed and Tom Thompson was asked to prepare a Resolution for maintaining Bridge Street by using street closures or snow routes for the removal of snow and ice along the curbs and gutters.

Councilman Nelson reviewed the estimated cost and maintenance of replacing the existing piping for the heated sidewalks at \$500,000 to \$600,000. If modifying the piping that runs along the curbs down Bridge Street area the cost could easily run around \$186,000. If replacing the piping to run hot water from the hot pool all the way down Bridge Street the cost would be somewhere around \$360,000.

To completely replace everything under the sidewalk and replacing the sidewalk will cost anywhere from \$500,000 to \$900,000 depending what is found as the piping is exposed

It may be appropriate to wait until spring when the lines thaw out and see what kind of damage has been done.

The signs will be a way for the town to maintain the curbs and streets for the remainder of the winter. Simple no parking signs to prevent parking all along Bridge Street when it becomes necessary to clean along the curbs and sidewalks.

Concerns were voiced about the lack of ownership on behalf of the property owners and business owners and their failure to take responsibility for clearing off their sidewalks before the ice builds up and becomes a safety issue.

Water/Sewer: Received DEQ permit for manhole project that will begin construction in the spring

USFS water and sewer project has been placed on hold
