AMENDED FINDING OF NO SIGNIFICANT IMPACT

TO ALL INTERESTED GOVERNMENTAL AGENCIES AND PUBLIC GROUPS:
As required by guidelines for the Wyoming State Environmental Review Process, the Wyoming Department of Environmental Quality (DEQ) has performed an environmental review on the proposed State Revolving Fund (SRF) supported action below:
Project: 2014 Wastewater Outfall Transmission Line & Pump Station, Saratoga, Wyoming
Location: Carbon County, Wyoming

Total Cost/SRF share: \$1,070,000/\$716,900

A Finding of No Significant Impact (FNSI) for this project was originally published July 23, 2014. The proposed route for the transmission line has been modified since that time. The new route has now also been reviewed and this Amended FNSI is issued to include the new route. The originally planned pump station is being eliminated from the project.

The proposed project will consist of constructing a wastewater effluent transmission line (force main) from the outlet of the Saratoga wastewater lagoons to the North Platte River. The project is a result of WYPDES requirements to provide sufficient dilution to meet ammonia discharge limits.

The Saratoga/Carbon County Impact Joint Powers Board (JPB) intends to use funds from the Wyoming Clean Water State Revolving Loan Fund administered by the Wyoming Office of State Lands and Investments. The JPB is borrowing \$716,900 from the Wyoming Clean Water State Revolving Loan Fund. Increased user fees will repay the loan. Rates have been increased to a maximum of \$7.20 per month per user to repay this loan, which has terms of 2.5% interest and 20 years.

No significant adverse environmental impacts will occur due to this project. The proposed project will not adversely affect wetlands, prime agricultural lands, threatened or endangered species habitat, historical sites, or sites with environmentally sensitive characteristics. The primary impacts of the project will be short-term and construction related. The sage grouse related timing stipulations requested by Wyoming Game and Fish Department (GFD) for the original route have now been retracted by GFD during the review of this new route. The GFD determined that timing stipulations are not necessary for this project as currently proposed.

The review process did not indicate significant environmental impacts would result from the proposed action. Consequently, DEQ has made a preliminary decision not to prepare an Environmental Impact Statement (EIS). The DEQ has taken this action on the basis of a review of the environmental assessment document and other supporting data, which are on file at the DEQ Casper Field Office. The public may review these documents upon request.

Comments supporting or disagreeing with this decision may be submitted for DEQ consideration. Address all questions and comments to Kevin Frank, SRF Project Engineer, DEQ Casper Field Office, 152 North Durbin Street, Suite 100, Casper, WY 82601, Tel. (307) 473-3471, FAX (307) 473-3458, email: kevin.frank@wyo.gov. After evaluating comments received, DEQ will make a final decision; however, DEQ will take no administrative action for at least 30 days after publication of this Finding of No Significant Impact.
