COUNCIL COMMENTS

Councilman Nelson drafted an updated recommendation to Chapter 5, line 30. The existing code already makes the distinction between major and minor events. He would like to clarify the overnight camping portion of the code. Councilman Nelson asks that the Council reviews the code and considers it being presented at the next council meeting. Councilman Hutchins asked if someone wants an event in town and knew it was going to bring 200-300 people, if the people were told that they can camp, who is responsible for controlling that? Councilman Hutchins wanted to understand how to enforce that. Councilman Nelson said that the Council still has discretion that special items be addressed by the applicant.

ITEMS FROM THE PUBLIC

The council wanted to speak with Black Hills Energy regarding their emergency response time. Black Hills Energy stated that there is a 60 minute guideline with FEMA. There is a specialist that lives here in Saratoga. Most of the time, there would be someone responding from Rawlins. Black Hills Energy has adapted protocols to keep the situation safe and keep people out to keep emergency responders safe. First responders will assess, and keep people out of the area. The maintenance crew will come from Rawlins. Black Hills Energy understands that it is a huge commitment to the first responders since most of the first responders are volunteers. Councilman Nelson said that Black Hills Energy does not expect first responders to fix the leak. Firefighters are not responsible to fix or crimp the lines. They are also asking the public to not be frustrated with the first responders. Fire Chief Waliser says there were 3-4 techs in Saratoga during the emergency and they were waiting for a more experienced tech. The fire department were asking if they can get the right qualified people first, immediately, it would help speed up the process. Mr. Hogan said that sometimes it takes time and they need proper information immediately to know who to send and the equipment to send. Alex Valencia will start a project that will be between Saratoga Ave. and Main Ave. from North River Ave. to North 5th St. This project time will be 8-12 weeks long. All the affected customers will be receiving letters. Councilman Nelson stated that there has been delays in asphalt patching and asks if they reduce any delays in the patching. Special Event Permits - Chris Shannon - A What Thing 7/24/21

Mayor James questioned the number of participants on the permit that was written down at 200. Chris Shannon said that the number he put on the permit is incorrect, and they are capping it at 300. Mr. Shannon said the Yard got a sizable grant from the WY arts council and was rushing to put on the event. Councilman Nelson stated that sizable events that involves music, camping, etc. and the cancelled Whatfest line up going to the yard, the Council would have appreciated the transparency. Councilman Nelson asked if there will be any camping. Chris Shannon said that there is no camping except for a few tents behind his house. He said that no camping has been posted everywhere. Councilman Nelson said that it is posted on a website that there are an expected 1500 people in attendance, with camping, food and booths. Councilman Nelson stated that with so many people in attendance, the planning would be months in the making. The legitimate concerns are parking, camping, bathrooms, food, etc. Chris Shannon stated there were just under 350 people at the Hoe Down in June. Chris said they never had any issues. Mayor James said there are issues with parking at Veteran’s Island. Councilman Nelson asked if there are any plans to have people be parking attendees? Councilman Nelson said they want to know how to plan and not prohibit the event outright. Chris Shannon said he could send people on their way if there are too many people that show up. Councilman Hutchins asked if Chris can have a handout for parking, camping, facilities, and a shuttle. Mayor James asked if there is a motion to approve the event. REPORTS FROM DEPARTMENTS

Town Hall: Octagon Construction-Mayor James would like to move Octagon construction to discuss next. Levi with Octagon Estates came in and stated that per the town ordinance, they are required to dedicate a percentage of land to open spaces. Levi said that the last planning commissioner from the previous administration said that the gross area did not have to include right of way area. It works out that now the subdivision conforms to municipal codes. If Octagon Construction includes the right of way, it is still in compliance despite the last motion

from the last administration. Councilman Nelson stated that they are approving open space as presented, not the final plat. Levi stated that a motion was made from planning and zoning last year to approve the final plat and will pass onto the Town Council for final approval. Mayor James stated that a resolution will need to be made for the final plat and the open space will need to be deeded to the Town of Saratoga. Jane France, Town Attorney, stated that the open space has to be deeded to the Town before the plat is recorded and can be done in conjunction with approving the resolution of the final plat. The ball got dropped for a certificate when the planning and zoning officer resigned. Mayor James stated that he needed a motion to approve credit for open space pointed out in phase 1 to apply to phase 3 for the open space requirements. Councilman Spaulding made the motion. Councilwoman Campbell seconded. Motion carried.

No person or organization holding the special permit shall sell any alcoholic liquor other than malt beverages on the premises described on the permit, nor shall any malt beverage be sold or consumed off the premises authorized by the permit because she had stated it incorrectly at the last meeting.

Attorney Jane France stated that 13.60.030, the town should give 10 days’ notice in writing to the property owner and information contained in the notice, after the passage of 10 days, it will be filed in the office of the county clerk, and a lien on the property and can be foreclosed in court. Councilman Nelson made a motion to start a lien process on all delinquent accounts that have not given any notice to the clerk. Councilwoman Campbell seconded. Motion carried.

Mayor James stated that there are 31 members on the active roster. There is one opening for anyone interested to become a volunteer firefighter. Mayor James stated that they have a bill for 3 panels for garage doors at the fire station. Councilman Nelson made the motion to pay the bill. Councilman Spaulding seconded the motion. Motion carried.

This will be a 5K race and to start at Veteran's Island. **Baseball fields** - The land owners want some items completed before a long term lease is signed. Councilman Spaulding made a motion for the control valves. Councilman Hutchins seconded. Motion carried.

Director Winter said at 4th St. and Main Ave., there was a water line not included in the meter pit project. They have experienced leaking from the pit for some time. There was no indication that the leak was from the installation. Owner hired a contractor and dug it up and found it was an issue on the line on the town's side. The owner is requesting the town to split the cost to that because he also made improvements to the line to his property. The cost of the whole project is \$2800, so the cost to town would be \$1400. Director Winter recommends the town pay it. Jon Winter said that the repair was made 2 feet into the property's boundary and no indications that the line was leaking from the town.

Councilman Nelson said we are done using flares. Director Winter said it was discussed but we still use it on some things. Councilman Nelson made the motion with the formal direction to stop using flares and use compression fittings. Councilman Hutchins seconded. Motion carried. PROPOSED TEMPORARY TURBIDITY INCREASE IN THE NORTH PLATTE RIVER

This activity will follow the procedures in Chapter 1, Section 23(c)(ii), of the WDEQ Water Quality Rules, which allow for temporary elevated levels of turbidity in certain circumstances. The applicant has secured a U.S. Army Corps of Engineers 404 permit for the project.

Requests for information about the proposed temporary turbidity increase should be directed to Eric Hargett by email (eric.hargett@wyo.gov) or phone (307-777-6701).
