

# PUBLIC NOTICES

The concept of public notices has been around since the 17th century and have been published in newspapers since the early days of the United States. # PUBLIC NOTICES

The concept of public notices has been around since the 17th century and have been published in newspapers since the early days of the United States. They are your way of keeping informed on what decisions your government representatives are making or what they're purchasing with your public funds.
