

SPORTS

Saratoga girls go 1-1 to end...

the Lady Panthers. Saratoga struck again 55 seconds later and the Lady Panthers turned it into a 44-37 lead.

With 3:03 on the clock, Lady Panther Williams went to the free throw line and only made 1 point but Saratoga scored quickly on a rebound and the score was now 47-37 in favor of the Lady Panthers.

Then with 1:51 on the clock, the Lady Panthers had the taste of victory in their mouth as they scored a 3-point shot to turn the lead into 50-37. At that point the Lady Panthers got the game locked in. Farson-Eden was able to score 4 points in under one minute and Saratoga hit 4 points in the final seconds. The Lady Panthers walk off with a 54-41 win.

Saratoga vs. Cokeville

It has been said that every team in the 1A Southwest Conference is good no matter who you face. However, the Lady Panthers found out on Friday that only one team is just that better than the rest and that is the Cokeville Lady Panthers.

From start to finish the visiting Lady Panthers were too dominant for the Saratoga Lady Panthers in a 58-16 blowout. It is nothing that the Lady Panthers did wrong, they just simply played against one of the top powerhouses in the state. The Cokeville Lady Panthers have a record of 15-2 with a conference record of 6-0 and are ranked 7th overall in the state.

In the 1st quarter with under seven minutes on the clock, both teams were at an even pace but the Cokeville girls made two quick baskets then the Saratoga Girls quickly scored 2 points and the score was 4-2 in favor of Cokeville.

The visiting Lady Panthers went to the free throw line with 6:01 on the clock. Cokeville's TyLeigh Dayton made both shots at the line and the score is now 6-2 in favor of the Lady Orange Panthers.

Cokeville did not stop there. With 4:38 seconds on the clock, the Lady Orange Panthers jump into an 8-4 lead. With 4:08 on the clock,

The Lady Orange Panthers went to the free-throw line again. Cokeville's Bryil Groll made 1 point and the score is 9-4 in favor of the Lady Orange Panthers.

Cokeville continued to score at a fast pace and at that point, the Saratoga Lady Panthers had no answers to slow down Cokeville. In the last two minutes of play, Cokeville was able to score 12 points and Saratoga was scoreless. The score was 21-4 in favor of the Lady Panthers at the end of the 1st quarter.

In the 2nd quarter, at 5:31 on the clock, Cokeville had a 23-4 lead. Saratoga had a difficult time scoring as Cokeville's defense was blocking shots and taking advantage of turnovers.

With 5:06 on the clock, Cokeville's Baily Bird went to the free throw line but only made 1 point. The score is now 24-4 in favor of the visiting Lady Panthers. Finally, the Saratoga Lady Panthers were able to score again. With 4:04 on the clock, Saratoga's Aspen Sewell made 1 point at the free throw line and the

score was now 24-5 in favor of Cokeville.

The visiting Lady Panthers struck again on a 2-point basket with 2:27 on the clock. Cokeville's lead was now 26-5. Cokeville scored again with 1:50 on the clock, turning their lead to 28-5.

In less than a minute the visiting Lady Panthers scored 2 points and with 20 seconds on the clock, the Saratoga Lady Panthers also scored 2 points. The Lady Orange Panthers would make three 3-point baskets just a fraction of a second before the buzzer hit and Cokeville took a 33-7 halftime lead.

Early in the 3rd quarter, the Lady Panthers made another 3 points and their lead was now 36-7. The Saratoga Lady Panthers scored again when Saratoga's Sewell made a 2-point shot with 5:05 on the clock. The score was now 36-9 in favor of Cokeville.

With only 4:57 on the clock, the Lady Orange Panthers would score and go to the free-throw line. Cokeville's lead is now 40-9. As the clock moved with 4:13 on the clock

the Lady Orange Panthers went to the free throw line and made 2 points then within 3 seconds at 4:10 on the clock Cokeville got the rebound and added another 2 points and the score is now 44-9 in favor of the Lady Orange Panthers.

With 3:05 on the clock, Cokeville scored again increasing the lead to 46-9. The Saratoga Lady Panthers would add 4 points and the Lady Orange Panthers would score 2 points and the score was now 52-13 at the end of the 3rd quarter.

In the 4th quarter, it was all Cokeville and there was not much Saratoga could do. Cokeville scored 6 points and Saratoga scored only 3 points. The Cokeville Lady Panthers walked off with a 58-16 win.

Ben Barnes, head coach for the Cokeville Lady Panthers, said he was proud of the girls. He said that his girls will be faced with challenges, especially going to the regionals.

"Saratoga is always good at home and they challenged our girls to play well and hus-

tle," Barnes said. "They did a good job in keeping up with the plays and fixing the little fundamental things".

Barnes said he reminded his team that no matter how good they have done this season he told them to never underestimate any of their opponents.

"Every day you have to come and play and every practice you have to be ready with intensity," Barnes said. "We take it one practice at a time, one game at a time, and we differently don't underestimate our opponents because anyone can have a good night and anyone can have an off night."

Heather Bartlett said it was a tough ending for the final home game of the season. She said she is proud of her girls and they have nothing to be ashamed of, especially going up against powerhouse Cokeville.

"Cokeville is the top team in the state," Bartlett said. "They are an extremely good team and they are good at shooting and passing and there is nothing that they are bad at."

Lady Tigers end the regular season on a six-game losing streak

Encampment Lady Tigers will be focusing on regionals, Coach Kevin Pantle optimistic despite end-of-season slump

By Richard Espinoza

The last time the Encampment Lady Tigers won a game was on February 2 when they beat Valley rival the Saratoga Lady Panthers, 40-38. Since then the Lady Tigers have gone on a six-game losing streak.

Encampment lost the last two games of the regular season against Little Snake River Valley (LSRV) Lady Rattlers 57-31 on Friday and to Cokeville 66-41 on Saturday. The Lady Tigers have nothing to be ashamed of, after all the 1A Southwest Conference is a powerhouse with Cokeville ranked at No. 1 and the Lady Rattlers ranked at #2.

The important lesson the Lady Tigers have learned is that every team is good in the 1A Southwest Conference and anyone can beat anyone on any day. That is something that Kevin Pantle, head coach of the Lady Tigers, has reminded his team in hopes that they will not be discour-

Encampment Lady Tigers vs LSRV Lady Rattlers, 31-57

Kristie Jordan: 8 points and 4 rebounds.
Savannah Fagan: 7 points and 5 rebounds.
Eckerley Pickett: 3 points and 4 rebounds with 4 steals.

Encampment Lady Tigers vs Cokeville Lady Panthers, 41-66

Kristie Jordan: 14 points.
Kyenna Jackson: 13 points and 7 rebounds.
Savannah Fagan: 6 points and 4 rebounds.
Eckerley Pickett: 3 steals.

aged when they go into regionals

Pantle said, despite the six-game losing streak, he still sees a lot of positives and believes that his girls are much better than they think they are. He hopes his girls will see that when they play in regionals.

"LSRV is a very good team," Pantle said. "We played with LSRV for three quarters. We just had a bad 2nd quarter".

Pantle said it was expected that Cokeville was going to be a difficult team to beat, especially since they are a top-ranked team both in the conference and the state. He said his girls gave it their all against the Lady Panthers.

"Cokeville is a very good

offensive team." Pantle said. "I am very happy with my girls' effort and their teamwork. We are getting better at the right time. We just need to put four quarters together. The girls are excited about the opportunity to go to regionals and show the rest of the state how good they are. I am very proud of this team and how far they have come."

Gentrie Meyer (13) goes in for a layup against Saturday's game against the Cokeville Lady Panthers.

PUBLIC NOTICE

Public Notice

Notification is hereby given to the public that the Saratoga Encampment Rawlins Conservation District (SERCD) has requested funding from the Federal Emergency Management Agency (FEMA) for a proposed flood mitigation and stream restoration project near the Town of Saratoga, WY. This notification is provided pursuant to the National Environmental Policy Act (NEPA), Section 106 of the National Historic Preservation Act (NHPA), Executive Orders 11988 – Floodplain Management, and Executive Order 11990 – Wetland Protection, and Federal agency implementation procedures described in 44 C.F.R. Part 9 and FEMA Directive 108-1. Funding from FEMA's Flood Mitigation Assistance Program will be utilized. The purpose of FEMA's mitigation program is to implement cost-effective mitigation projects that will reduce the overall risk to populations and property.

The proposed project will stabilize the North Platte River within a channel reach that has a long history of instability. The project is in T17N R87W Section 13, at approximately latitude: 41.438119; and longitude: -106.791671. The project includes realignment of approximately 1674 linear feet of river the channel to more stable plan form, profile, and cross-sectional dimensions. These modifications are intended to significantly reduce the risk of an avulsion of the North Platte River at Boozer Creek through channel stabilization, floodplain connectivity, multi-stage channel, and in stream structures such as toewood and boulder constructed riffles. The Boozer Creek Ditch will not be directly reconnected to the North Platte River via culverts or headgates as part of this project. The flood mitigation measures installed in the past will be removed to establish a more permanent and natural-appearing riparian area. Areas for willow staking are also delineated in the design plan as long-term stability through vegetation will be promoted. The existing road and irrigation ditch will be reconnected to their existing alignments. Hydraulic modeling and analysis have demonstrated the project will reduce flooding potential in Saratoga and mitigate the impacts of a 100-year flood to the Town's structures, facilities, and residents. Construction activities would be in accordance with all applicable federal, state and local laws, regulations and ordinances. This action requires SERCD to acquire a Floodplain Development Permit, and to comply with local floodplain ordinances and the National Flood Insurance Program regulations.

The President of the United States has issued Executive Orders that require Federal Agencies to focus attention on the environment and on human health and safety when considering the funding of an action. Executive Orders 11988 – Floodplain

Management and 11990 – Wetland Protection require federal agencies to avoid to the extent possible the long and short-term adverse impacts associated with the occupancy and modification of floodplains/wetlands and to avoid direct and indirect support of floodplain/wetland development wherever there is a practicable alternative. With this public notice, FEMA is informing the public that the proposed action will occur in areas that are mapped within the 100-year floodplain, as well as wetlands. Based on the purpose of the project, all practicable alternatives contain project features located in the floodplain and wetlands and are functionally dependent at their location according to project design considerations. Any impacts have been minimized to the extent possible. It is anticipated that long-term impacts to the floodplain and wetlands will be beneficial, with potential minor, short-term impacts during the construction process.

Hydraulic modeling and analysis have determined that minor increases to water surface elevations will occur to specific areas of flood irrigated pasture lands located adjacent to the project area. Impacted landowners have been notified by the SERCD and have expressed no concerns with the proposed project. The above noted increases to water surface elevation will not impact any structures. To minimize impacts to wetlands, appropriate erosion and sediment control measures will be installed to control the discharge of pollutants from the construction site. Approximately 1.19 acres of wetlands were delineated within the project area. Any permanent wetland impacts will be mitigated onsite as part of the proposed stream restoration project. Impacts to jurisdictional wetlands will be addressed in compliance with Section 404 of the Clean Water Act. FEMA has also evaluated and addressed potential effects of the proposed project on threatened and endangered species, and historic properties.

A public comment period for the proposed project described in this notice will remain open for 15 days from date of publication. If no substantive comments are received, the proposed project may proceed no sooner than 15 days after the comment period closes. Interested persons may obtain more detailed information about the proposed project by contacting Joe Parsons, SERCD District Manager, by phone at 307-326-8156 or by email at joe.sercd@gmail.com. Information may also be requested from Daniel Jones, FEMA Environmental Specialist by email at daniel.jones5@fema.dhs.gov or by mail at the Denver Federal Center, P. O. Box 25267, Denver, Colorado, 80225.

PUBLIC NOTICES

ADVERTISEMENT FOR BIDS

Notice is hereby given that the Town of Saratoga, (hereinafter called Owner) will receive and accept bids only through QuestCDN.com via their electronic VirtuBid online bid service until 1:30 P.M. Local Time March 20, 2024 for the **South River Street Waterline Replacement, Saratoga, Wyoming**, in accordance with the Bidding Documents.

A public bid opening will be held at the Saratoga Town Hall, 110 E. Spring Ave., Saratoga, Wyoming, 82331. Bids will be publicly opened and read aloud at the stated date and time above.

The project consists of:
 Furnishing and installing approximately 2450 lineal feet of 4”, 6” and 12” water main, gate valves, fittings, appurtenances, 40 lineal feet of 20” directional drill, 13 water services including new curb stops and connections to existing meter pits, 5 fire hydrants, various surfacing restoration throughout and an additive alternate for a chip seal.

Each Bid must be accompanied by Bid Security payable to the Owner for 5% of the total amount of the Bid, to be forfeited to the Owner as liquidated damages if the Bidder is awarded the Contract and fails to enter into an Agreement with the Owner within thirty (30) days from notification. The Owner may reject any and all Bids and reserves the right to waive minor irregularities in any Bid. Bids shall remain open for forty-five (45) days after the day of Bid opening.

The successful Bidder shall perform work and furnish a Performance Bond and Payment Bond, each in the amount of 100% of the Contract price with a corporate surety approved by the Owner. The Contractor shall guarantee all materials, equipment furnished and work performed for a period of one year from the date of final acceptance; additionally, the Contractor shall guarantee all trench compaction for a period of two years from the date of final acceptance. The Performance Bond shall remain in full force and in effect through the guarantee period.

The Notice to Proceed shall be issued within thirty (30) days of the execution of the Agreement by the Owner. If the Notice to Proceed is not issued within this period, this period may be extended by mutual agreement between the Owner and the Contractor. If the Notice to Proceed has not been issued within the thirty (30) day period or within any mutually acceptable extension thereof, the Contractor or the Owner may terminate the Agreement on

written notice to the other party, and in such case, there shall be no liability under the Agreement or otherwise on the part of either party.

The Contract will be awarded to the lowest Bidder who has met the minimum requirements set forth in Article 3, Instructions to Bidders, and who is determined to be responsible in the sole discretion of the governing body.

The Contract shall be let to the responsible certified resident making the lowest bid, if the certified resident’s bid is not more than five percent (5%) higher than that of the lowest responsible nonresident bidder and the resident bidder does not propose to subcontract more than thirty percent (30%) of the work to nonresident contractors. A resident for this purpose must be certified as a resident by the Wyoming Department of Workforce Services prior to bidding upon the Contract. See W.S. 16-6-101, et seq. A resident bidder shall submit a copy of its certificate of residency with its bid.

Resident Wyoming laborers, workmen and mechanics shall be used upon all work in this contract whenever possible.

Pursuant to W.S. 16-6-106, “preference is hereby given to materials, supplies, agricultural products, equipment, machinery and provisions produced, manufactured or grown in Wyoming, or supplied by a resident of the state, quality being equal to articles offered by competitors outside of the state.”

Complete digital copies of the bidding documents are available at EngineeringWyoming.com under PROJECTS OUT FOR BID (QuestCDN Project #8950950) for a \$25 electronic bid package fee. Please contact QuestCDN at 952-233-1632 or info@questcdn.com for assistance if necessary.

A Mandatory Pre-Bid Conference will be held at **1:30 P.M. local time, on February 29, 2024** at the Saratoga Town Hall, 110 E. Spring Ave, Saratoga, WY 82331; site visit to follow. Representatives of Owner and Engineer will be present to discuss the Project.

Mail sealed bids to PO Box 487, Rawlins, WY 82301, or hand deliver bids to The Road and Bridge Office 1016 West Hugus, Rawlins, WY 82301. All sealed bids must be received no later than 3:00p.m. Monday, March 4th, 2024. The bids will be opened at the Carbon County Commissioners meeting on Tuesday, March 5th, 2024.

The County reserves the right to reject any and all bids or to accept any bid, which in its sole and absolute judgment, shall under all circumstances, best serve the County’s interest. No bids will be considered which are received after the scheduled time, and any bid so received after the scheduled time will be returned to the bidder unopened. The County reserves the right to waive any and all formalities of any bid.

****Please indicate on the lower left-hand corner of the envelope “Sealed Bid” Mag Chloride.**
