

2023-2024 New Teacher/Staff Profiles

DISTRICT:

**Jackie Jones,
HES/MBES Principal**

After 28 years in the classroom, I am starting my new role as principal of the North Carbon County Elementary Schools and couldn't be more excited. I have spent most of my summer working on administration classes and working in Hanna and Medicine Bow Elementary Schools to prepare for the 2023-24 academic year. My husband, Cliff, and I were able to take a couple of trips to Yellowstone to do some photography and escape cell phone and internet service. We spent some time fishing at Turpin Reservoir, and I enjoyed sharing some nice brook trout with my mom, Susan, who still resides in Hanna.

My transition to this role will be met with stepping away from coaching volleyball and basketball, and I am finding that to be very emotional for me. Being able to coach high school track is still part of my plan, so I will be able to continue working with athletes at HEM. My learning curve has been steep moving into this position, but there have been so many wonderful and helpful people guiding me through my initial "shock".

Carbon County is a special place on earth, and I could not be more proud to work here with all the extraordinary students, parents, and staff across our district. I will continue to learn and grow, and I will make it my daily goal to stay focused on our children and remain driven as I work collaboratively with others to ensure the success of our students.

**ENCAMPMENT K-12
SCHOOL:**

**Ashley McKinney,
Secondary Math**

My name is Ashley McKinney and I will be teaching Math at Encampment K12 School. I have spent my whole life in Wyoming and the last 11 years living in Encampment, where my husband is from, being a homemaker and raising my four kids. My family loves the

mountains, and we spend almost every weekend at the family cabin. I also love to travel and read.

I graduated from the University of Wyoming with a Bachelors in Mathematics/Science. I am currently enrolled in Western Governors University to get my Masters in Teaching Secondary Mathematics. I am a council member for the Town of Encampment and a board member for the Platte Valley Little League. I am very excited for this opportunity to teach the students here. Being a substitute for the last year has really made me love this school and the community and support that it offers. I will be working to extend that community and support into my classroom!

Dallas Fields, PE/Health

My name is Dallas Fields. I will be teaching Physical Education and Health at Encampment K-12 School. I was born in Big Piney, Wyoming and moved to Saratoga when I was little. I grew up in Saratoga and graduated from Saratoga High School back in 2005. Afterwards I went to college at the University of Wyoming and graduated with a Degree in Physical Education and Health Education. I have previously worked as a fitness instructor at the University of Oklahoma, worked as a civilian employee for a U.S. military base in Germany, and taught Physical Education in the U.S. for three years. The past four and a half years I have lived abroad in France. While there I played American football in full equipment (helmet, shoulder pads, etc.) for a local adult league and created an American football club during that time to play small sided tackle football games in equipment for adults. I'm hoping to continue that project in Wyoming. I'm looking forward to helping inspire the kids to find physical activities that they will love to continue doing as adults.

**Mackenzie Rakness,
3rd Grade**

My name is Mackenzie Rakness and I will be teach-

ing 3rd grade at Encampment K-12 School. I have been living in Encampment for the last 6 years raising my two young children while finishing my degree of Elementary Education and K-12 Special Education with Western Governors University. During this time I have also worked as a Paraprofessional in the Saratoga schools and as a substitute teacher in the district. I was also an assistant coach for Saratoga Middle School Girls Basketball team for the past three seasons.

I'm most excited about my new role as classroom teacher to be able to connect with my students while creating lasting memories and positive learning experiences for each of them. I'm excited to take on the new responsibilities that come with being a teacher. When I'm not spending time in the classroom, you can find me with my family in the mountains.

**HANNA ELEMENTARY
SCHOOL:**

Erin Kennedy, 2nd Grade

My name is Erin Kennedy and I am thrilled to be teaching 2nd grade at Hanna Elementary! My family and I have lived in Elk Mountain for 13 years. I am a proud mom of two amazing boys, one is attending college at Sheridan College and the other will be a Senior at HEM. I have worked as a Substitute Teacher and a Special Education Paraprofessional for 8 years at Elk Mountain Elementary and Hanna Elementary. I absolutely loved working with children and decided to pursue my education and become an Elementary Teacher through Western Governors University. I am excited to start this new school year and be an inspiration for my students to love learning!

In the winter you can find me skiing and snowshoeing and in the summer I enjoy working in my yard. I love being outdoors! I am so grateful for this opportunity and I can't wait to meet my students!

**H-E-M JR./SR. HIGH
SCHOOL:**

**Taylee Solaas,
Special Education**

Hello, I am Taylee Solaas! I will be the Middle School Special Education Teacher at HEM JR/SR High School. I had graduated from the University of Wyoming with my Bachelors in Elementary Education and an Area of Concentration in Creative Arts. I am currently going back to school at the University of Wyoming to get my Masters in K-12 Special Education! I completed my student teaching at the University of Wyoming Laboratory School this last fall along with having the opportunity to complete an internship there in the 3rd and 4th grade classroom in the spring. That has provided me the opportunity to see how the school year changes, and how students change throughout the year. Along with seeing all the growth and progress made by each and everyone of the students!

My husband and I are both graduates from HEM JR/SR High School, and are excited to be back! Some of my hobbies are going camping, hiking, fishing, having lazy days cuddling up with my dog with a good book, or just spending time with family and friends. I am super excited for this upcoming school year, and can't wait to get to learn and grow alongside my students!

**Taylor Kenyon,
Special Education
(long term sub)**

My name is Taylor Kenyon, my family and I have lived in Carbon County for 6 years now. I started out as a substitute teacher for the district and have spent the last year and a half as a Special Ed Paraprofessional here in Hanna. I will be the High School Special Ed teacher at HEM. I am currently attending Western Governors University to finish my degree in K-12 Special Education. I am very passionate about volleyball and I am excited to get to coach the Junior High volleyball team this year! My husband is a Brand Inspector and we have two wild little boys. When I'm not working or doing homework I enjoy reading a good book and spending time with my family. I am looking forward to starting this new adventure!

**Kim Beyer, Math
Interventionist**

Hello, I am Kim Beyer! I am very excited to be part of the team at H-E-M Junior/Senior High School. I am licensed to teach secondary Mathematics and AP Computer Science. I firmly believe that math should be

taught by people who love math and I LOVE MATH! I am from a remote area which is about 45 minutes from Laramie near Harriman, Wyoming. I am returning to the classroom after raising my children. My husband is the senior engineer for a professional society and has a home office. My children are grown; one son is a math teacher at Fort Collins High, and the other is in the Navy as a Nuclear Surface Warfare Officer stationed in San Diego. The girls are an engineer, an elementary teacher, and a homemaker. I enjoy quilting, camping, and running wrestling tournaments. My favorite mathematicians are Admiral Grace Hopper (inventor of high level programming languages - COBOL) and George Boole (inventor of Boolean Algebra). "Pure Mathematics, in its way, the poetry of logical ideas." - Albert Einstein.

Corinne Whaley, Art

Hello, there! My name is Corinne Whaley, and I will be teaching art at H.E.M. Jr./Sr. High School! I was born and spent my childhood years in Southern California and then spent my junior and senior high school years in Laramie, Wyoming. I was fortunate enough to have a wonderful art teacher at Laramie High School that inspired me to want to teach art. I completed my student teaching at Rock River School and Laramie High School, then graduated with a degree in Art Education from the University of Wyoming. I love working in almost any sort of medium and cannot wait to bring a multimedia approach! In my down time, I enjoy crafting, drawing, painting, and reading. This will be my first year teaching, and I am beyond excited to share my passion for art, learning, and creativity with my students and community.

**Brendon Reeves, PE/Health
(long term sub)**

My name is Brendon Reeves and I will be teaching P.E. at HEM starting this fall. I grew up in Medicine

Bow, WY and lived there my whole life. I went to high school in Hanna at HEM and graduated in 2020. I am currently enrolled at UW and am working towards a degree in health and physical ed. This will be my first year teaching and I am very excited to get started. I also will be the assistant coach for both High school football and high school boys basketball and look forward to that as well!

**MEDICINE BOW
ELEMENTARY SCHOOL:**

**Kenzie Strauch, Half-time
Multi-grade**

Hey all! My name is Kenzie Strauch. I've lived in Medicine Bow, WY for 8 years after graduating from UW. I've been with CRB2 since moving here in a variety of positions. For most of my time I taught 5th grade at HES. I'm excited to be back in the position that started my career here with CRB2 as a half teacher at Medicine Bow Elementary working with all of the students.

**SARATOGA ELEMENTARY
SCHOOL:**

Jordan Quig, 3rd Grade

Hi, I am Jordan Quig. I am going to be teaching 3rd grade at SES! I am also the assistant Cross Country coach at SMS/SHS. This will be my 3rd year teaching in Carbon County. I am a Wyoming native growing up in Casper. I attended Sheridan College and the University of Wyoming. I started my career in Rawlins where I taught 4th grade for two years and was the assistant high school soccer coach before making the move to Saratoga late last year! When I'm not busy teaching I'm running or hiking in the mountains. Saratoga is the perfect place for me and I'm so excited to see what this chapter of life has to offer.

Elizabeth Soyez, Special Education

Hello- My name is Elizabeth Soyez. I was born and raised in Cheyenne, WY, before having this amazing opportunity to move and teach for Carbon County School District #2. I have been in Special Education for 14 years, starting out as a paraeducator while finishing my teaching degree. I am K-6 General Education certified and K-12 Special Education certified. I have also received my masters in Autism through Grand Canyon University. My passion for teaching is helping my students learn how to be amazing, successful, kind human beings in their own unique way. My husband, Eric, is a farrier here in Carbon County, and I have three daughters. My two oldest are attending college and my youngest will start 9th grade. My hobbies are riding horses, camping, and spending time with family and friends. I am very excited to start this new

Joseph Johnston, 5th Grade

A three year break from teaching at Carbon County School District #2 is all it took from me, Joe Johnston, to realize what career I want to pursue. I started my teaching path in Riverton in 2009 and taught fourth grade for three years. My wife, Amy, who is the SMHS counselor, and I decided to move to Saratoga in the spring of 2012 as we both were offered teaching jobs. From the fall of 2012 to the spring of 2020 I taught 6th grade here in Saratoga. After the spring of 2020 I was offered a position on a ranch where I had been working in the summers for almost twenty years. After many discussions with our family, Hunter 13 and Tryaton 11, we decided it was a position I would accept. During these three years I have been the Saratoga High School men's basketball assistant coach. I am excited to return to the classroom and teach 5th grade for the district. I have

never taught 5th grade in my eleven years teaching, however having taught both the grade before and after I feel this will benefit the students. On the weekends and when I am not teaching you will find myself and family on the mountain, floating the river or attending a sporting event.

SARATOGA MIDDLE/HIGH SCHOOL:

Tiffany Herring, Special Education

Hi there! My name is Tiffany Herring and I am so excited to be starting this new adventure as a Special Education Teacher at Saratoga Middle/High School. I have worked for Carbon County School District #2 for 10 years now, as a Substitute Teacher and a Special Education Paraprofessional. Being able to further my education and take on the role of Special Education Teacher is a dream come true. I graduated from WGU with my Bachelors in Special Education and am

currently working on my Master's Program in Special Education through WGU. When I'm not working on homework, I enjoy spending time with my husband Brian and my two children Jarom and Cassidy. I am also a voracious reader and love music! I am so excited to work with the staff and students at SMHS...GO PANTHERS!!!

Andrea Leinen, Secondary Math

I am Andrea Leinen and my husband and I have owned a small farm in Platte County for the past 30 years. For now, my husband is staying in Platte County to run our electrical contracting business. I taught in Platte County for 17 years and am certified to teach math and computer science. Last year, I had the honor of working with the staff, students, and parents as an interventionist at Hanna-Elk Mountain Jr. High/High School. I'm excited to become a member of the staff at Saratoga MS/HS this year as a math teacher and am looking forward to getting to

know the families in the community. Although we enjoy spending time with our kids & grandkids, playing golf, camping, riding 4-wheelers, and fishing, we have not had much time this summer for those activities because we are building a home here in Saratoga. It's a lot of work, but we feel the effort is going to be worth it!

Rachel Johnson, Secondary English

Rachel Johnson is excited to work as the new SMHS English teacher this school year! She joins CCSD2 with over 18 years of experience in education, and has been a member of the Saratoga community for a few years now. Rachel has trained with a number of different programs that can enhance student learning, and she's assisted students with their learning at various schools in Carbon 2. Rachel looks forward to the school year, and is dedicated to helping students achieve their best in her classroom!

Madeline Hutchison, Social Studies

Hello, My name is Madeline Hutchison. I am ecstatic to be joining the Panther Family as the newest Social Studies teacher at Saratoga Middle/High School. I am originally from Nebraska; however, much of my family is from Wyoming, and I have known for years that this is where I wanted to live. I graduated from Sheridan College in 2021 and transferred to the University of Wyoming, where I completed my bachelor's in Secondary Social Studies Education earlier this year. I worked at the University of Wyoming Laboratory School prior to student teaching at Big Horn High School. I enjoy fishing, hiking, reading, and treating my dog like the little prince he is. I have always been fascinated by history and the questions it poses. I aim to impart that curiosity to my students by bringing history to life and ensuring lessons are engaging and relevant to the lives of my students.

Put Us on Your Back-to-School Checklist!

Let MHCC Family Practice Clinics Prepare Your Kids for the Classroom!

As you work to get your family ready for the new school year, it's helpful to start with a healthcare checklist, including important items such as scheduling a well-child checkup or sports physical, getting your child the necessary vaccinations, refilling any needed medications, nutrition planning, updating emergency details for contact information, allergies, illness and more. It may all seem overwhelming, but with our convenient clinic locations, we've got your back-to-school needs covered - right here, close to home!

Let us help you get your child ready for the school year, and start crossing things off your checklist today! For more information about any of our clinics visit mhcc.com/mhcc-clinics. To make an appointment with one of our family practice clinics, call one of the locations listed below!

Adult = \$5.00

Free/Reduced Meal Application
are available at the office or online at
www.family.schoolcafe.com

Reminder:

CCSD#2 "DOES NOT" allow meals to be "CHARGED". Students must have money in their meal account in order to receive school meals. If you have question please contact the SES office at 326-8365. Thank you in advance.

Carbon County School District #2 (CCSD2) today announced its policy for free and reduced price meals for children unable to pay the full price of meals served under the National School Lunch Program, and/or School Breakfast Program. Each school and the central office of CCSD2 have a copy of the policy, which may be reviewed by any interested party.

The following household size and income criteria will be used for determining eligibility. Children from households whose income is at or below the levels shown are eligible for free or reduced price meals.

Household Size	FREE MEALS -- 130%					REDUCED PRICE MEALS -- 185%				
	Weekly	Bi-Weekly	Twice a Month	Monthly	Annually	Weekly	Bi-Weekly	Twice a Month	Monthly	Annually
1	\$365	\$729	\$790	\$1,580	\$18,954	\$519	\$1,038	\$1,124	\$2,248	\$26,973
2	\$493	\$986	\$1,069	\$2,137	\$25,636	\$708	\$1,404	\$1,521	\$3,041	\$36,482
3	\$622	\$1,243	\$1,347	\$2,694	\$32,318	\$885	\$1,769	\$1,917	\$3,833	\$45,991
4	\$750	\$1,500	\$1,625	\$3,250	\$39,000	\$1,068	\$2,135	\$2,313	\$4,625	\$55,500
5	\$879	\$1,757	\$1,904	\$3,807	\$45,682	\$1,251	\$2,501	\$2,709	\$5,418	\$65,009
6	\$1,007	\$2,014	\$2,182	\$4,364	\$52,364	\$1,434	\$2,867	\$3,105	\$6,210	\$74,518

For each additional family member, ADD	\$129	\$257	\$279	\$557	\$6,682	\$183	\$366	\$397	\$793	\$9,509

SNAP Benefits and Foster Children
Students that are in these two categories can be directly certified for free lunch and breakfast without completing a meal benefit income application. Contact the school and they will process your request.

POWER and FDPIR Power (non custodial)
Students that are in these two categories can be certified for free lunch and breakfast, after a meal benefit income application is completed by the adult. The adult must include the adult household member's signature and the appropriate case number.

Homeless and Runaway
Students are determined to be homeless or runaway by the school will receive free lunch and breakfast. Contact the school for more information.

Households not receiving SNAP, POWER or FDPIR benefits
Students can be eligible for free or reduced lunches and breakfasts by completing a meal benefit income application. It must include all members of the household and their income, the last four digits of the primary adult's social security number and signature. Forms can be obtained through the school.

4 Tech-Friendly Ways to Ace the School Year

American families are expected to spend record-high amounts this back-to-school season. According to the National Retail Federation (NRF), families with children in elementary, middle and high school will spend \$890 on average for school items, while those with college-aged students are looking at more than \$1,360 in shopping expenses.

Whether your kids are off to kindergarten or college, here's how you can shop smarter and prepare for the school year:

- 1. Upgrade Your Devices.** Electronics and tech are a top priority for families this school season. The NRF says Americans are expected to spend a collective \$15 billion on electronics for back to school and \$23 billion for back to college. The good news is that you may be able to score deals this back-to-school season to help save on smartphones, wearables and more. T-Mobile is offering a free REVVL 6 Pro 5G, OnePlus Nord N30 5G or Samsung Galaxy A14 5G when adding a voice line for each device on a qualifying plan via 24 monthly bill credits plus tax. Plus, if T-Mobile customers prefer to gear up with a wearable, they can score the wireless company's exclusive SyncUP KIDS Watch for free when adding a qualifying watch line via 24 monthly bill credits plus tax. To learn more about T-Mobile's back-to-school deals, head to t-mobile.com/offers/back-to-school-deals.
- 2. Keep Track of School Items.** It's the time of year when backpacks, lunchboxes and musical instruments tend to go missing. Ensure your child or college student never loses their items again by placing a T-Mobile SyncUP TRACKER in items of importance. It's a simple, easy way to help you keep track of belongings.
- 3. Stay Connected for Study Time.** For families or college students looking for an affordable option to stay connected at home, T-Mobile has them covered with 5G Internet for only \$30 per month with a Go5G Plus or Magenta MAX plan and AutoPay. For those unsure about making the switch, the wireless company offers a worry-free Test Drive of its 5G Internet for 15 days. And, T-Mobile 5G Internet comes with a Price Lock Guarantee, so you can rest easy knowing your monthly rate won't increase (exclusions like taxes and fees apply). Learn more by visiting <https://www.t-mobile.com/homeinternet>.
- 4. Prioritize a Sleep Routine.** A recent "Lancet Journal" study found that children need at least nine hours of sleep each night to support healthy neurocognitive development. Set your kids up for success by creating a school bedtime and wake-up routine a couple weeks before school begins to help ease into the new academic year. Apps like Moshi use sounds, sleep stories and even meditations to encourage better sleep for kids, and Calm can be used for college students and parents to ease stress.

Get ready to rock the school year with some savvy planning, deal-hunting adventures and a dose of healthy habits that create an epic year ahead for you and your family.

Tips to Get Your Student Prepped for College Entrance Exams

Is the SAT or ACT on the horizon for your high schooler? A lot of emphasis is placed on college entrance exams, and your child may be anxious about their scores. To adequately prepare for the SAT or ACT, consider these tips:

- Practice, practice, practice: Encourage your student to take free online practice tests early and often. Not only is this an effective way to get familiar with the types of questions that will be on the test, it can give your child

a sense of where they stand currently and help them identify areas where they may need some extra review. It's helpful to simulate test day as much as possible. Have them take the practice test in a quiet place and time each portion of the test accurately.

- Have the right STEM tools: Acing the math portion is easier when you fully understand the principles behind the test questions. Fortunately, you can affordably equip your student with tools that

facilitate that understanding. Casio, dedicated to making STEM education more engaging, has developed the fx-CG50, a graphing calculator in the brand's PRIZM line-up that offers a color LCD with a full textbook-style display. Jam-packed with features that enable students to solve the most challenging equations, it offers the ability to easily draw three dimensional graphs such as planes, cylinders and spheres, and view them from various angles in order to better analyze their

shape. Plus, a cross-section option and special zoom function can be used for greater analysis.

- Build vocabulary: An expansive vocabulary is not just useful in the real world, it can greatly improve a student's chances of success in the English, reading and writing sections of the exam. Getting familiar with some of the more frequently used words on the test is important. However, it's best to break up the studying into chunks. Select a few words to master

each day with flash cards. Hopefully, students will start to see etymological patterns that will help them make educated guesses when they don't know a word.

- Take a break: It's tempting to assume a last-minute study session the evening before the exam is going to make or break their performance, but a mental breather is actually a better use of time. Urge your child to get a good night's sleep not just the night before the test, but that entire week.

Pre-test jitters may lead to insomnia, but having a solid foundation of rest will help ensure your student is alert on test day. The morning of the test, encourage them to eat a healthy, filling breakfast and do activities that will warm up their brain, such as reading a book or solving a crossword puzzle.

Sufficient preparation and great study tools can alleviate college entrance exam anxieties so that your student walks into their testing center with confidence.
