

PUBLIC NOTICE

In accordance with the provisions of the Wyoming Environmental Quality Act and Chapter 1, Section 2(c) of the Solid Waste Rules and Regulations (SWRR), the Upper Platte River Solid Waste Disposal District has submitted an application for a major amendment for the Saratoga Landfill.

The major amendment application consists of a 40-acre facility expansion, for the disposal of construction and demolition (C/D) waste in unlined trenches. The Saratoga Landfill is located one and one-half miles east of the Town of Saratoga. More specifically, this facility is located in the Section 8 of Township 17 North, Range 84 West, Sixth Principal Meridian in Carbon County, Wyoming. The total volumetric capacity of this 40-acre expansion area is estimated to be 573,268 cubic yards of C/D waste. The life of the facility is estimated to be 63 years.

The Department of Environmental Quality, Solid and Hazardous Waste Division (Department) has reviewed the major amendment application and determined that it is generally complete and suitable for publication. The SWRR Chapter 1, Section 2 (b)(ii), require that the applicant must provide public notice that a proposed major amendment has been issued and inform the public that there is an opportunity to file comments on the proposed major amendment before it is issued in final form. The notice is also required to indicate that the public may file formal written objections to issuance of a final major amendment. This publication provides notice of those opportunities.

Copies of the major amendment application, the Department's

review of the application, and the proposed major amendment can be viewed at the Department's Cheyenne office (122 West 25th Street, Herschler Building, 4th Floor-West, Cheyenne, WY 82002), at the Carbon County Public Library-Saratoga Branch (503 West Elm Street, Saratoga, WY 82331), or the Carbon County Clerk's Office (415 West Pine Street, Rawlins, WY 82301).

Any interested person has the right to either: provide comments on the proposed major amendment, which the Department will consider prior to taking final action on the major amendment application, or file formal written objections to the proposed major amendment. The period for providing comments, or filing formal written objections to the proposed major amendment, shall begin on Wednesday, January 23, 2013 and end on Friday, March 1, 2013. Any comments or formal written objections must be received by 5:00 PM on the last day of the notice period. Comments or formal objections must be submitted in writing to the Department of Environmental Quality, Todd Parfitt, Director, 122 West 25th Street, Cheyenne, WY 82002. Formal written objections must be accompanied by a statement of the facts upon which the objection is based. If substantial written objections are filed, a contested case hearing will be held by the Environmental Quality Council.

In accordance with the Americans With Disabilities Act, special assistance or alternative formats will be made available upon request for individuals with disabilities.
